INCLINED PLATFORM LIFT  
FOR CURVED STAIRS

**extrema**  
people in motion

**Next** is a **new generation** platform stair lift with silent functioning and comfortable to use. The innovative concept of the guide rail system makes of Next the unique platform stairlift **available for quick delivery**, against other products that require nearly 3 months. Fast delivery, colour display, **touch button panel** are only some of the exclusive features of Next.

Every component is designed to occupy the **minimum space** on the staircase and in the parking zones.

**Remote controls** to call the stairlift from the floor or send it to the parking position.

**Foldable seat** (optional) with safety belt, for seated use.

**Wander lead** for attendant control, with spiral cable (optional).

1. The **touch button panel** allows to move ergonomically the lift from board by simply touching with your fingers or palm the luminous arrows for ascend/descent, with no need to press on them.
2. The **colour display** permits to constantly monitor the functioning status of Next, makes diagnostics easy and enables the maintenance man to set the main parameters tailored on the user's need.
3. The emergency button stops immediately the platform; when **pressed it sounds uninterruptedly**, warning the user of any incidental pressing.
4. Next is fitted with **batteries** that ensure the functioning of the lift in the event of breakdown of power supply. Also in case of failure the lift can be moved from board with the **emergency motorized maneuver**.

# TECHNICAL FEATURES OF NEXT PLATFORM LIFT

Unfolded platform (loading/unloading at the bottom floor)
